

Get Clean® Safe for You, Your Home, and Your Planet®

Health isn't just about what you put in your body—it's about everything around you. Get Clean offers powerful, natural, and nontoxic cleaning choices that are **Safe for You, Your Home, and Your Planet®** – because when it comes to keeping your house clean, the Earth safe, and your family healthier, you shouldn't have to choose.

We believe in a cleaner that doesn't leave behind more toxins than the toxins it's supposed to clean.

SAFE

Your home should be the safest place in the whole world.

Do your cleaners contain butyl cellosolve™, ammonia, or formaldehyde? These ingredients – and more – may be toxic, and not very clean at all. Get Clean has none of these things, so you can be sure your products take care of your family's safety as much as you do.

POWERFUL

Don't sacrifice powerful convictions for powerful cleaners.

You don't have to choose between cleaners that are tough on dirt but rough on the environment and "eco-friendly" cleaners that don't seem to work. Get Clean has substantial cleaning power that's gentle on the environment.

GREEN

Cleaning the house shouldn't involve dirtying the Earth.

Get Clean products use biodegradable, earth-friendly cleaning agents with no phosphates, nitrates, or other things the planet doesn't like. They're super-concentrated to reduce waste, meaning less weight to ship, less product to use, less packaging to throw away. You can clean the house and keep the planet clean too.

SMART

Save money while you go about saving the Earth.

For some common cleaners, a lot of what you're buying is water. We made our cleaner more economical by making it concentrated. Our smaller bottles contain a whole lot of clean, saving you money, ounce for ounce. They make a positive impact on your budget and on the planet. You have nothing to lose but dirt.
